October 20, 2015

To Whom It May Concern:

It is my pleasure to write to you regarding my student, Lexi Stanley. I have been her teacher for two years as well as her student leadership organization advisor. I have seen such growth and maturity from this student in the two years I have known her.

Over the past two years Lexi has been very involved in Texas Association of Future Educators and Future Educators Association. Last year she was part of a group project with three other students that did an Autism research paper and presentation. They did so well they advanced through the state level to the National level. She attended the National Future Educators Association Leadership Conference in Washington, DC., last spring. It required much editing and had many tedious details. Lexi showed direction and diligence. It required much collaboration with others, yet it was important for her to make independent decisions in order to move the project forward

This year, Lexi is once again immersed in student competition for T.A.F.E. and Educators Rising. She will be competing on October 28 in the Region XI competition in two events. She hopes to advance to state and who knows after that!

Lexi is never afraid to try something new. Her desire to succeed drives her to do her best. I have seen her inside a classroom as an intern teacher, working with autistic students and she already possesses the skills to succeed as a professional educator.

I have been pleased with Lexi's classroom performance in the two years I have had the pleasure to have her as a teacher. She is kind and caring and respects the value of a good educator.

Sincerely,

Susan Stevens
